

GB Operating Instructions

E Instrucciones de manejo

For United States:

FC Cautions to the user

The changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guaranty that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

IMPORTANT

Excessive sound pressure from Earbuds or Headphones can cause hearing loss.

To prevent possible hearing damage, do not listen at high volume levels for long periods of time.

CAUTION

Do not allow this unit to be exposed to water, steam or sand. Do not leave the unit where excessive heat could damage such as in a parked car where the heat from the sun can build up even though the outside temperature may not seem too high.

Controls

①	Headphone socket
②	Tuning LED indicator
③	Strap holder
④	Power indicator
⑤	Volume On / Off control
⑥	Tuning scale
⑦	Battery compartment

Battery operation

To insert the batteries, first open the battery cover by sliding it in the direction shown by the arrow. Insert two AA size batteries into the compartment. Ensure all batteries are inserted with correct polarity as shown on the inside of the battery compartment.

Headphone Input

Plug your headphones or earbuds into the headphone socket for private listening.

Volume On / Off control

Turn on the power by switching the Volume On / Off control switch. Adjust it to the desired level of sound. Rotating the control clockwise will increase the sound level.

Frequency Band switch

Set the Frequency Band switch to the desired Frequency Band.

Tuning control

Slowly rotate the tuning control to select the required station. The tuning indicator will light when the station is correctly tuned.

Tuning scale

Rotate the tuning control until the tuning scale corresponds to the frequency of the required station.

Specifications

Battery	2 X AA (UM-3 / R6) size
Frequency coverage	FM 87.5–108 MHz AM 520–1710 kHz
Output Power	1mW 32ohm
Headphone socket	3.5mm dia. (mono)
Operating temperature range	0°C to +35°C
