

PR-D17

AM/FM-Stereo RDS (RBDS) Portable Radio
Designed for the Vision Impaired with Guided Voice Prompts

Color

BLACK

The PR-D17 was designed with special consideration for the visually impaired. Large yellow control knobs and buttons with raised symbols have been added to allow simplified and intuitive operation. Each press of the button or turn of the knob is followed by an audio prompt in the chosen language between English, Spanish, German, Dutch, French, and Swedish to help the users for station browsing, alarm clock settings, radio station information and more.
