

GENUINE 310 DDR-31BT

DAB+ / FM-RDS / Aux-in / Bluetooth
Tabletop Wooden Cabinet Receiver

The compact Genuine 310 receives radio via DAB + and FM. The FM receiver is equipped with an RDS (Radio Data System) function which, in addition to radio, also receives additional information: e.g. title and artist of the current played music. The Genuine 310 has an AUX-in connection, which allows you to connect for example an MP3 player with your own music. In addition, there is a line-out connection, via which the radio can be connected to an external amplifier.

The optional Bluetooth feature allows you to play music by streaming audio from Bluetooth-enabled devices, such as tablets, smartphones, or notebooks. The Genuine 310 (BT) is equipped with an infrared remote control.
